

HOUSEHOLD INCOME AND EXPENDITURE SURVEY 2005/6

PROVINCIAL REPORT (PART TWO)

Solomon Islands Statistics Office
Department of Finance and Treasury

Honiara, September 2006

Foreword

On behalf of the Government of the Solomon Islands, it is a pleasure to present the 2005/6 Household Income and Expenditure Survey (HIES) Provincial Report (Part Two). The Provincial Report (Part Two) complements the National Report and is presented separately.

The design and formulation of any policy, strategy, plan and sound decision that affects families must depend on timely, relevant and vital socio-economic indicators at the household level. The Solomon Islands is pleased that the HIES will be able to provide relevant household level statistics for users in government, the private sector, the donor community, the civil society and the public at large.

The Provincial Report provides information at the provincial level. The report provides information on the income and expenditure behavior of Solomon Islands households.

The Report also provides statistical tables in summary form which would provide useful information to any user. Any detailed tables can be obtained directly from the Statistics Office (SISO) of the Department of Finance and Treasury.

I gratefully acknowledge the invaluable support of the Secretariat of the Pacific Community (SPC) particularly the efforts of the Statistics Advisor, the Government Statistician and the Permanent Secretary for Finance & Treasury for their leadership in ensuring the accomplishing of this major project. I also wish to acknowledge the work of the HIES working committee members as well as the co-operation of the sample household respondents in making this survey possible.

I also take this opportunity to sincerely thank AUSAID and NZAID for their co-operation and financial supports towards making this survey a reality.

Lastly but not the least, I deeply appreciate and heartily thank the staff of Statistics Office, Department of Finance & Treasury for their efforts in preparing this report.

I believe that the report will provide invaluable information for policy makers, planners, administrators and researchers in the public, private sectors and in the donor community in formulating policies & programmes, and making decisions for the improvement of the lives of Solomon Island families.

Hon. Mr. Bart Ulufa'alu
Minister of Finance and Treasury

Preface

The Household Income and Expenditure Survey (HIES) 2005/6 is the second and comprehensive nation-wide survey conducted by the Solomon Islands Statistics Office (SISO) of the Department of Finance and Treasury. The first survey was conducted in 1992 and was limited in scope and coverage. This survey was an initiative of the Secretariat of the Pacific Community (SPC)'s Solomon Islands Statistics Development Project (SISDP) and the Government of the Solomon Islands. It was aimed to strengthen and revitalize the national statistical system and to ensure the regular production and release of core socio-economic statistics on a timely and regular basis. The primary objectives of the HIES were to provide data required for rebasing the weights of the consumer price index (CPI) and updating the national accounts of the country. The secondary objectives include the provision of data for poverty assessment and the Millennium Development Goals (MDGs) and for all relevant cross sectional policy and planning purposes.

This Provincial Report (Part Two) presents summary statistics at the country level by urban and rural geographical areas. The Provincial Report complements the National Report. Statistical information is presented at the provincial level. Government agencies, international agencies and development partners, private sector and individual users will find this report as an informative and useful guide.

The HIES 2005/6 has been successfully completed with the cooperation and support of a large number of people and agencies at various stages. Although it is not possible to individually acknowledge everyone involved in the survey, several persons and organizations deserve special mention. We wish to thank certain staff of the SISO particularly Mr. W.Piduru, Mr. D. Reggie, Mr. R. Aipaina and Mr. M. Dimola for survey operations efforts and Douglas Kimi who worked on data processing and data analysis. We also wish to acknowledge SPC's assistance in sampling, Mr. Chris Ryan and Greg Keeble in data processing and Mr. Willie Lahari for his overall HIES project management and leadership throughout the survey and in assisting with the analysis of the report.

This very important and timely initiative would not have been possible without the funding support of the AUSAID and NZAID to whom we express our sincere gratitude.

Luma Darcy
Permanent Secretary
Department of Finance & Treasury

Nick Gagahe
Government Statistician (Ag)
Solomon Islands Statistics Office

Willie Lahari
Statistics Advisor & Project Manager
SPC Solomon Islands Statistics Development Project (SISDP)

Executive Summary

Objectives

The 2005/6 Household Income and Expenditure Survey is the second nationwide survey of households undertaken by Solomon Islands Statistics Office (SISO) since 1992.

The primary objectives of the HIES includes:

- Re-basing of the weights of the current basket of goods and services in the Consumer Price Index (CPI) and obtaining relevant data to update the series of national accounts aggregates, particularly the Gross Domestic Product (GDP).

The secondary objectives of the HIES includes:

- Obtaining relevant data on housing facilities, demographic characteristics of households and income and expenditure for poverty analysis, Millennium Development Goals (MGDs) indicators and relevant data for policy and planning purposes.

Scope and Coverage

The HIES operation was undertaken in all 9 provinces including Honiara. Honiara is the only fully urban area and the capital of Solomon Islands. The survey covered the Urban and Rural areas focusing on Honiara, Other Urban Areas and the Rural Areas of the nine (9) provinces, and aimed to produce estimates at the country national and provincial levels only.

The survey targeted private households whilst collective households in hospital, hotels, prison and educational institutions were excluded. A household is considered in the scope for the survey if the household have resided in the Solomon Islands for the last 12 months or more, or if not, they intend to live in Solomon Islands for the next 12 months.

A sample of 4,320 households was planned for the country and about 3,822 households (88.5%) responded favorably satisfying the survey requirements

Table 0.1 below presents the estimated survey population of Solomon Islands by province. Of the total of 534 thousand people, Malaita Province recorded the highest number (140 thousand) of people consisting about 26% of total population, followed by Guadalcanal Province (84 thousand), Western (82 thousand) to Rennell-Bellona recording the least population at slightly over 4 thousand.

Table 0.2 below show the estimated annual growth rate of population from 1999-2005/6 by country and province. The high growth is attributed to gross undercounts during the 1999 Census which was undertaken at the time of the ethnic tensions in the country.

Survey Limitations

In theory, household income should equal household expenditure but in practise as in most income and expenditure surveys in the pacific region, the information collected from

the HIES 2005/6 recorded that a majority of the households' income were relatively lower than their corresponding expenditures. A ratio of households' annual expenditure to its annual income by province (see Table 1.2) showed that expenditure in most cases was significantly higher than income.

The survey design and costing meant that the data collected would only provide estimates at the national and provincial geographical levels. This report only presents information at the provincial level. The field data collecting exercise was undertaken from October 2005 to March 2006 and that seasonality effects on expenditure was not fully considered.

Key Findings on Household Expenditures

Table 0.3 presents the average annual household and per capita expenditure for the Solomon Islands and by province. Honiara, the only fully urban area and capital of Solomon Islands recorded the highest average annual expenditure (75 thousand) and annual per capita (11 thousand) followed by Rennell-Bellona and Central provinces. The differences in the median values indicate that a number of households with relatively high annual expenditures have inflated the average values. In Honiara, the median amount (58 thousand) means that half the household population spent about 58 thousand annually. On average, a household in the Honiara spent more than 2 times the amount spent by the households in other provinces reflecting the general belief that the cost of living is relatively higher in Honiara.

Table 0.3: Average Annual Household, Per Capita Expenditure and Household Size by Province

Province	Average Annual Household Expenditure	Median Annual Household Expenditure	Average Household Size	Average Annual Per Capita Expenditure	Median Annual Per Capita Expenditure
Choiseul	21,980	14,037	6.18	3,557	2,271

Table 0.5 overleaf presents the percentage of average annual expenditure by major expenditure items of food and non-food items by province. In all provinces apart from Honiara, food accounts for more than half the household expenditures. In Honiara, food constitutes only 35 percent of household budget.

Food consumption patterns vary markedly between provinces as shown by expenses on regular food purchases in Table 0.6 below. On average, all provinces apart from Honiara spent close to or over half of their annual expenditures on cereals and cereal products alone. Honiara spent about 25%. An example of a major cereal product in Solomon Islands is rice.

Table 0.6 Structure of Annual Average Food consumption Expenditure by Province (percent)

Food Items	Choiseul	Western	Isabel	Cent-Ral	Ren-Bell	Guadal-canal	Malaita	Makira	Temotu	Honiara	Solomon Islands

Income Distribution and Inequality

Whilst inequality measures can be better represented with poverty related measures, it was felt that a broad measure of income distribution needed to be reflected in this report.

To show the distribution of income (expenditure), a general measure of (in)equality is derived through the Lorenz curve and the Gini coefficient. The Lorenz curve presents the cumulative income (or expenditure) share on the horizontal axis against the distribution of the population on the vertical axis. If each person had the same income (or total equality), the income distribution curve would be the straight line in the graph.

The Lorenz curve below shows relative equalities in Isabel and Makira Provinces and inequalities in the other provinces. Using expenditure as a proxy of income, it is observed that, on average, about 80% of the household population in all provinces including Honiara earn about close to half the total income of the country and only about 20% of households earn the other half of total income.

Table 0.7 shows that inequality as measured by the Gini coefficient shows that Isabel Province relative to the other provinces records the least inequality (0.24) whilst Rennell-Bellona Province recorded the highest inequality (0.46).

Table 0.7: Gini Coefficient for Total Annual Expenditure by Province

Province	Gini Coefficient
Choiseul	0.351
Western	0.260
Isabel	0.237
Central	0.337
Rennell-Bellona	0.463
Guadalcanal	0.298
Malaita	0.294
Makira	0.265
Temotu	0.347
Honiara	0.288
Solomon Islands	0.361

Part I – Survey Design and Operations

1.1 – Survey Design and Operations 2005/6

1.1.1 - Introduction and Objectives

The 2005/6 Household Income and Expenditure Survey is the second nationwide survey of households undertaken by Solomon Islands Statistics Office (SISO) since 1992.

The primary objectives of the HIES includes:

- Re-basing of the weights of the current basket of goods and services in the Consumer Price Index (CPI). The survey also aimed to provide data on the behavior of household consumption expenditure patterns that will help form the weights that would reflect the relative importance that consumers attach to commodities and services;
- Obtaining relevant data for purposes of updating the series of national accounts aggregates particularly the Gross Domestic Product.

The secondary objectives of the HIES were to:

- Obtain data on housing and general demographic characteristics of households;
- Obtain data on poverty measures, income and income inequality measures;
- Obtain relevant data for the Millennium Development Goals (MDG), particularly health and education; and
- Obtain other relevant data where necessary

1.1.2 - Scope and Coverage

The HIES operation was undertaken in all 9 provinces including Honiara. Honiara is the only fully urban area and the capital of Solomon Islands. The survey covered the Urban and Rural areas focusing on Honiara, Other Urban Areas and the Rural Areas of the nine (9) provinces, and aimed to produce estimates at the country national and provincial levels only. Due to cost reasons, the survey design was limited in its scope to derive adequate estimates at the lower geographical levels like the Enumeration Areas (EAs) and below.

The survey targeted private¹ households. Collective² households in hospital, hotels, prison and educational institutions were excluded. A household was considered in the scope of the survey if the household had resided in the Solomon Islands for the last 12 months or more, or if the household intended to live in Solomon Islands for the next 12 months. Households who didn't meet either of these criteria were excluded from the survey. Although the sample was representative of the population, a small number of areas were excluded in the provinces of Malaita and Temotu because of remoteness.

1.1.3 - Sampling Strategy

Sampling Frame

The 1999 Population Census provided a list of the number of households down to the lowest enumerated area (EA) by province. The list was revised by the Survey Section of the SISO due to significant changes in population size and the movement of households that became inevitable during 2000-2003 during and after the civil unrest which began in 1998. Maps of towns and geographical areas were available with the SISO and

¹ Private households is a group of people (related or unrelated) who live together (not necessarily living in one housing unit) and share a common cooking arrangement. A person who is living alone is also considered as a private household.

² Collective households are group of unrelated people who live together such as in hotels, prisons, hospitals etc.

were electronically imputed in the Geographical Information System (GIS) managed by the SISO. The maps together with the revised Census list of EAs and number of households provided the frame for designing the HIES 2005/6.

Survey Design

The survey was based on a two-stage sampling strategy using probability proportional to size (PPS) selection and random selection. The strategy for selection of each area type is slightly different depending also on enumerator workload schedule and the need to accommodate estimates at the National and Provincial level as well as Urban and Rural splits.

The Survey was designed to collect data for national and provincial level estimates and covered both urban and rural areas. The survey covered Honiara, provincial centers and rural areas within these provinces.

The sampling scheme used was a stratified two stage design with the Enumeration Areas (EA) as the Primary Sampling Unit (PSU) and the households within the sample areas as the secondary sampling unit (SSU). In the first stage the EAs were selected with probability proportional to their population size based on the 1999 population census. In the second stage households were selected using systematic sampling with a random start. The next stage was allocating the sample to each provinces proportional to the square-root of the population. This should mean that estimates of each province would roughly have the same level of accuracy. The sample was then split for each province between the provincial centers (considered to be urban) and the remaining rural population. Given the need for urban and rural estimates the sample was split between the two areas proportional to the square-root of the population based on the 1999 census. The last stage in the process involved modifying the final counts to accommodate the workloads for interviewers during the fieldwork. The interviewers were expected in the field for six months and could accommodate 10 households per month (60 household in total). It was desirable to have the total workloads for each province divisible by 60 to give each interviewer an even sized workload and have the sample spread out evenly across each month.

Since Honiara (capital of Solomon Islands) consists of a mix of areas which covers high income, middle income and low income areas, it was advisable that the EAs be grouped based on the class best suited to their situation. Thus for Honiara the EA list was sorted by the income group category for selection. The number of EAs to select from Honiara is simply the desirable sample size (480 households) divided by the number of households to be selected for each EA. It was decided that 10 households should be selected from each selected EA. Therefore the number of EAs that were selected was equivalent to $(480 / 10) = 48$ EAs.

Selection of EAs

To select the EAs using proportional probability sampling (PPS) the following steps needed to be applied; (taking Honiara as an example):

Step 1: Determine the total number of households in Honiara according to the frame (6,742 households).

Step 2: Divide the number by the number of EA selections required to determine the skip for the area; $6,742 / 48 = 140.46$.

Step 3: Select a random between 0 and the skip determined in *Step 2* (let this be 126.00).

Step 4: Determine the selection number for Honiara by continuously adding the skip to the random start until the maximum number of households in Honiara has been reached (eg, 126.00, 266.46, 406.92, 547.38,, 6,727.55).

Step 5: Round the numbers to the nearest whole number (eg 126, 266, 407, 547,, 6,728).

Step 6: Determine which EA in the list are associated with these selection numbers by looking at the cumulative count of the households.

Selection of Households

A sample size of 5 per cent was desired with a total of 3,792 households. The households were selected based on the estimated population at the time of the mid-point of the survey field work –December 31, 2005. The estimate for the number of households for each province was derived by dividing the projected person count by average household size (derived from the 1999 census results) which summed up to 75,839 households. A further 10 per cent sample loss was employed resulting in the sample size adjusted to 4,213 households in total. This was to compensate for selected households being vacant, refusals by respondents to participate, death in the family and poorly filled out questionnaires that could not be used. Finally, adjustments to the allocation of equal workloads (60 households per enumerator) resulted in the sample size of 4,320 households selected for the survey.

1.1.4 - Survey Instruments and Operations

Survey Instruments

The HIES is a relatively complex survey and the instruments to collect data was implemented through the following questionnaires and associated sections:

- Household Control Form – household composition and particulars;
- Household Expenditure Form – housing amenities, facilities and major household, expenditure on tenure, fixed capital, land, property etc;
- Personal Income Form – Income pattern of household members and other income earning activities;
- Household Dairy – Daily expenditure by type of goods and services
- An additional health module was included – health facility utilization, immunization, motherhood, mortality, breast feeding & family planning, Malaria and miscellaneous

Data Collection and Operation

The method of collection was via face to face interview. This is where the interviewer personally visits the household and asks the household (usually the household head) to respond to the questions on the four main questionnaires including the health module.

A total of 85 trained interviewers and 15 supervisors were assigned full time to complete the field operation. Each supervisor was assigned to over-see four enumerators although in some provinces, depending on the locality and distance to cover, there were more enumerators. Each interviewer had to interview at least 60 households during the 6 month period. This comprise of 6 workloads of 10 households each. Each workload took four (4) weeks in total and is outlined below:

Week 1: Prior to household listing the interviewers travel around the EA and list all the households located in the area. A sample of 20 households is selected from each EA using a systematic skip, 10 if the EA is urban. The interviewer visited all the selected households and introduced the survey, fill the Control Form and drop off the first diary.

Week 2 and 3: Interviewer visits all the selected households each day to assist with filling out the diary. Conduct the expenditure, income and health questionnaires for each selected households during the 2 weeks.

Week 4: Interviewers confirm that all survey questionnaires are complete and the collection of all diaries from all selected households. The completed forms are passed on to the supervisor who spot checks for completeness and deal with any problems that might have arise in the field and is responsible to dispatch the completed forms.

Data Processing

The Statistics Programme at the Secretariat of the Pacific Community (SPC) provided the assistance in data processing. A HIES data entry program was setup in CPro version 2.6 and data entry started soon after the first workload was registered in the Statistics Office in November 2005 until May 2006. Logic procedures for data editing are prepared in Microsoft Access and data editing for all questionnaires were done in CPro, except for the Diary where the editing is done in Microsoft Excel. Data management queries are done in Microsoft Access and the production of tables was done in Microsoft Excel. This report was prepared in Microsoft Word. Data verification of 5 per cent is done to check the accuracy of data input, though data edit checks are carried out for completeness, consistency and accuracy including the outliers. Anomalies of data were amended appropriately.

Survey Mandate

The HIES is executed within the Statistics Act. Whilst the ownership of the data belongs to the people of the Solomon Islands, data security, confidentiality and institutional ownership of the data will be held with the Statistics Office.

1.1.5 - Weighting

A weight indicates how many people in the population a person represents. The weight assigned to each EA and or household was based on the sampling technique used as mentioned in the survey design. For the HIES, each household carried two weights:

- A Strata weight – representing the weight of the household within the geography or locality strata, that is within Honiara, the provincial centers and the rural areas;
- A National weight – representing the weight of the household within the whole of the Solomon Islands.

The EAs as the primary sample unit were initially stratified according to respective localities in rural and urban areas and a total 18 strata was derived. The strata are as follows;

Strata 1: Choiseul- Urban	Strata 2: Choiseul–Rural
Strata 3: Western- Urban	Strata 4: Western-Rural
Strata 5: Isabel- Urban	Strata 6: Isabel-Rural
Strata 7: Central-Urban	Strata 8: Central-Rural
Strata 10: Guadalcanal–Urban	Strata 9: Rennell-Rural

Strata 12: Malaita-Urban
Strata 14: Makira- Urban
Strata 16: Temotu-Urban
Strata 18: Honiara-Urban

Strata 11: Guadalcanal– Rural
Strata 13: Malaita-Rural
Strata 15: Makira-Rural
Strata 17: Temotu-Rural

The sample selection scheme used the standard method of selecting the primary sampling units (EAs) probability proportional to size (the size being the latest household count for each EA), and then selecting a fixed number of households within each selected EA. So the sample weight for a household would be:

$$\text{Weight} = 1 / P(\text{selection})$$

where,

P = probability

$P(\text{selection}) = P(\text{selected stage 1}) * P(\text{selected stage 2})$

$P(\text{selected stage 1}) = (\# \text{ hholds in EA on frame}) / (\text{skip for that province})$

$P(\text{selected stage 2}) = (\# \text{ hholds responded in EA}) / (\text{actual } \# \text{ hholds in EA})$

Error Measurements

No formal measures of sample errors have been calculated for the survey results.

Non sampling errors cannot be readily measured. These included:

- A response difficulty caused by misunderstanding of what was required from the survey and survey instruments by both households and interviewers.
- The questionnaires were in English, which is at least a second language for interviewers and respondents.
- The fact that some expenditure are seasonal and would not have been picked up in the survey period.
- The exclusion of remote areas and institutions from the sampling frame.

1.1.6 - Reference Period

The survey data collection phase was undertaken for a period of 6 months from October 2005 to March 2006.

The reference period of two weeks was sufficient also for recording data particularly expenditure data from the diary although diaries are usually scheduled for one month. This was not necessarily a calendar month but a period of four weeks preferably to cover seasonality on household expenditures. Most households particularly in provincial and rural areas usually earn a two weekly income whilst a few earn on a monthly basis and thus it was seen as the appropriate timeframe to capture data

particularly household expenses from the diary where data was collected for a period of two weeks.

1.1.7 - Response Rates

A sample of 4,320 households was planned for the country and about 3,822 households (88.5%) responded favorably satisfying the survey requirements. See table 1.1 below.

Table 1.1 Response Rate by Province

Province	Sample Planned	Sample Responded	Response Rate
Choiseul	300	279	93.0
Western	540	436	80.7
Isabel	360	259	71.9
Central	360	332	92.2
Renbell	120	113	94.2
Guadalcanal	600	570	95.0
Malaita	780	687	88.1
Makira-Ulawa	420	401	95.5
Temotu	360	312	86.7
Honiara	480	433	90.2
Solomon Islands	4,320	3,822	88.5

Non-Response

Despite efforts made by the enumerators and follow up attempts by the supervisors in most of the cases, there was non-response encountered during the survey.

The reasons for non response by the household were due mainly to the following:

- The household was out of scope of the survey
- Dwelling was vacant or not being lived in
- The household could not be contacted after a number of attempts
- Household excluded for other reasons like death in the family, refusals, customary reasons etc

1.2 - Measuring income or expenditure

1.2.1 - Aggregated Income and Expenditure

Income and expenditure are presented in nominal terms or at current prices and are aggregated at **annual** values.

Total Expenditure

Total expenditure is categorized into eight major categories which comprise of Food (item 1) and Non- Food (item 2-8):

1 Food	5 Transport
2 Housing	6 Tobacco and alcohol
3 Household operation	7 Payments of credit schemes and loans
4 Clothing and footwear	8 Misc. goods and services

Food Expenditure

Food expenditure consists of food purchases, food given as gifts and the value of home grown food consumption. Food comprises of the following sub category items:

111 Fruit	141 Dairy & milk products
112 Vegetables	151 Farm products, fats & oils
121 Meat & meat products	161 Non-alcoholic beverages
122 Poultry	162 Confectionery
123 Fish (incl. Shellfish)	171 Other foods
131 Bread & biscuits	181 Take-aways & food eaten outside the home
132 Cereal & cereal products	

Non-Food Expenditure

2 Housing	6 Tobacco and alcohol
3 Household operation	7 Payments of credit schemes and loans
4 Clothing and footwear	8 Misc. goods and services
5 Transport	

Aggregated Income

The household total income is obtained by summing up the following sources of income:

- (1) Annual wage/salary income
- (2) Annual income from self employment & related business activities
- (3) Annual income from previous job
- (4) Annual income from services
- (5) Annual income from benefits
- (6) Annual income from home production
- (7) Annual income from cash gifts
- (8) Annual income from goods received
- (9) Annual income from gambling
- (10) Annual income from rent
- (11) Annual loan income
- (12) Annual income from other sources

1.2.2- Comparison of Income and Expenditure

When comparing household income and expenditure it is generally noted in HIES surveys that the expenditure data is more accurate than the income data. This is evidenced in the Solomon Islands 2005/6 HIES. Income is a subject that is often sensitive to many people and a number of respondents are reluctant to disclose the full amount of their income, particularly if they have sensitive sources of income for taxation purposes etc. Even some items like the total amount of cash gifts received from relatives outside the household may often be simply overlooked and may be underreported.

The comparison of annual income and expenditure is presented by the ratio of expenditure to income as shown in Table 1.2 below. The table shows that 55% (ratio of 1.26-2.00), over half the total sampled households reported having expenditures higher than their income. Out of the 55%, 20% (ratio 2.0+) of total households reported having expenditures twice or more than twice the value of their incomes reported. It is therefore evidenced that these households were spending relatively more than their income.

Total Expenditure/Income

Table 1.2 Ratio of Total Annual Expenditure over Total Annual Income by Province

Part II – Demographics & Dwelling Characteristics

2.1 - Demographic Profile

2.1.1 - Population Estimate

The result of the estimated survey population by provinces and respective household sizes is recorded in Table 2.1 and Table 2.2 overleaf which records the break up of population by sex and growth from 1999-2005/6. Malaita Province recorded the highest population (141 thousand) whilst Rennell-Bellona was the least populated province (4 thousand).

Table 2.1: Estimated Survey population and Household size by Province

Province	Households	Population	Percent	Household Size
Choiseul	5,056	31,259	5.86	6.18
Western	13,650	81,852	15.34	6.00
Isabel	4,614	23,638	4.43	5.12
Central	4,209	24,491	4.59	5.82
Rennell-Bellona	672	4,409	0.83	6.57
Guadalcanal	14,611	84,438	15.82	5.78
Malaita	22,115	140,569	26.34	6.36
Makira	7,524	50,026	9.37	6.65
Temotu	4,300	23,800	4.46	5.53
Honiara	9,984	69,189	12.96	6.93
Solomon Islands	86,734	533,672	100.00	6.15

Table 2.2 below showed that the high growth rate reported can be attributed to the results of the 1999 population census which was grossly undercounted, as a consequence of the ethnic tension which began in 1999 that coincided with the census field enumeration.

Table 2.2 Population Estimate by Sex, households and Province :1999-2005/6

Province	2005/6					1999				
	Male	Female	Total	Private Household	Annual growth % (1999-2005)	Male	Female	Total	Private Household	Annual growth % (1986-1999)
Choiseul	16,193	15,066	31,259	5,056	7.4	10,236	9,772	20,008	3,045	3.0

Sex ratios calculated show that there are lesser males than females in Western, Isabel, Rennell-Bellona and Temotu Provinces. For example, in Isabel Province, there are 91 males per 100 females.

Sex Ratio	Choiseul	Western	Isabel	Central	Rennell	Guadalcanal	Malaita	Makira	Temotu	Honiara	Total
Males per 100 females	107	99	91	110	99	112	106	112	97	106	106

Table 2.3a and Table 2.3b overleaf presents the distribution of population by age and sex separately for each province. The age specific population showed that in all provinces, between 33 to 44 percent of males and females were below 15 years of age, 52 to 65 percent were between 15 to 64 years of age group and only 1 to 4 percent over 65 years of age. This means that the all provinces of the Solomon Islands have very young populations.

To indicate the age dependency of the young population (less than 15 years) and the old (65 years plus) that are supported by the working age group (15-64 years), the age dependency ratio has been calculated as:

Age Dependency Ratio = Population (0-14 years + 65 years and over)/Population (15-64 years) x 100

	Choiseul	Western	Isabel	Central	Rennell Bellona	Guadacanal	Malaita	Makira	Temotu	Honiara	Solomon Islands
Age Dependency Ratio	81	83	84	63	85	80	71	77	66	52	72

The age dependency ratio for all provinces are shown in the above table. Rennell-Bellona Province has the highest dependency ratio (85) which means that 85 persons were dependent on every 100 persons in the working age for economic support. Honiara recorded the least age dependency ratio.

2.1.2 - Household Characteristics

Marital Status

Table 2.4 overleaf shows that over half the population in all provinces are never married with the highest never married population recorded in Rennell-Bellona.

The corresponding age groups in Table 2.5 show that in all provinces over half the population that are never married are in the ages below 15 years.

** Note that a significant number of persons did not fully report their ages especially in Western and Malaita provinces

2.2 – Dwelling Characteristics

Household dwelling types and associated characteristics are important in assessing the accessibility and affordability of household facilities. Facilities may include sources of energy used for cooking and lighting, water sources etc that form major features of a dwelling.

Table 2.7 records that at the country level close to 45% of households live in traditional type housing. At the provincial level, Rennell-Bellona, Isabel, Honiara & Western provinces recorded 6 to 28 percent of households residing in traditional type housing unlike the rest of the other provinces where more than half the households live in traditional type housing.

Table 2.7: Distribution of households and Type of House by Province

The primary source of water for Drinking and Cooking as in Table 2.11 overleaf for Western, Isabel, Central and Malaita Provinces is piped supply outside the neighborhood. For Choiseul, Guadalcanal and Makira Provinces, the primary source is river/lake/creek. The primary source for Rennell-Bellona and Temotu is rain water tanks and for Honiara the primary source is piped into household/yard.

Part III – Expenditure and Income

2.3 – Annual Expenditure

2.3.1 Annual Household Expenditure (AHE)

Table 3.1 presents the average annual household and per capita expenditure for the Solomon Islands and by province. Honiara, the only fully urban area and capital of Solomon Islands recorded the highest average annual expenditure (75 thousand) and annual per capita (11 thousand) followed by Rennell-Bellona and Central provinces. The differences in the median values indicate that a number of households with relatively high annual expenditures have inflated the average values.

In Honiara, the median amount (58 thousand) means that half the household population spent about 58 thousand annually. On average, a household in the Honiara spent more than 2 times the amount spent by the households in other provinces reflecting the general belief that the cost of living is relatively higher in Honiara.

Table 3.1: Average Annual Household and Per Capita Expenditure and Household Size by Province

Province	Average Annual Household Expenditure	Median Annual Household Expenditure	Average Household Size	Average Annual Per Capita Expenditure	Median Annual Per Capita Expenditure
Choiseul	21,980	14,037	6.18	3,557	2,271
Western	28,024	21,278	6.00	4,671	3,546
Isabel	19,035	17,116	5.12	3,718	3,343
Central	32,223	23,144	5.82	5,537	3,977
Rennell - Bellona	35,432	28,092	6.57	5,393	4,276
Guadalcanal	30,285	24,597	5.78	5,240	4,256

Makira-Ulawa	18,965	15,130	6.65	2,852	2,275
Temotu	15,759	12,389	5.53	2,850	2,240
Honiara town	75,053	58,367	6.93	10,830	8,422
Solomon Islands	30,069	20,035	6.15	4,887	3,256

Table 3.2a and Table 3.2b overleaf present the amount and percentage of average annual expenditure by major expenditure items of food and non-food items by province. In all provinces apart from Honiara, food accounts for more than half the household expenditures. In Honiara, food constitutes only 35 percent of household budget.

2.3.2 Food Consumption

Food consumption patterns can vary markedly between provinces as shown in Table 3.3 below. The table represents food purchases by households and shows that on average all provinces apart from Honiara spent close to or over half of their annual expenditures on cereals and cereal products alone. Honiara spent about 25%. An example of a major cereal product in Solomon Islands is rice.

Table 3.3 Structure of Annual Average Food consumption Expenditure by Province (percent)

Food Items	Choiseul	Western	Isabel	Central	Ren/Bellona	Guadalcanal	Malaita	Makira	Temotu	Honiara	Solomon Islands

2.3.3 Total Annual Expenditure and Type of House

Table 3.4 overleaf shows the total annual expenditures by type of housing by province. The tables report that households occupying permanent single unit housing in Western, Isabel, Rennell-Bellona and Honiara spent relatively more on food and this is also the same for the other provinces but who occupy traditional type housing. There is variation in spending in non food items amongst households occupying different types of housing in the provinces.

Table 3.4: Total Annual Expenditures in Provinces and Type of Housing by Major Categories

Expenditure Category	Choiseul								Total	Western								Total
	Permanent -single housing unit	Permanent - more than one housing Unit	Building with two or more apartments	Dwelling attached to a shop or	Lodging house	Traditional	Other	Total	Permanent -single housing unit	Permanent -more than one housing	Building with two or more apartments. 2.3.5 Total Annual Expenditure by population decile

Presentation of household expenditure estimates for analysis can be summarized to form classes of population formed on the basis of monthly per capita expenditure or for our purposes using total annual expenditure. In this case, 10 annual expenditure classes were derived for all provinces separately. This is presented in Table 3.6 below.

Table 3.6 - Distribution of total annual expenditure in province by population decile

Population decile	Solomon Islands			Choiseul			Western		
	Expenditure	% of expenditure	Cumulative % of expenditure	Expenditure	% of expenditure	Cumulative % of expenditure	Expenditure	% of expenditure	Cumulative % of expenditure

Table 3.6 reports that the total annual expenditure over different decile groups for all provinces show vast differences when comparing from the lowest ten percent class to the highest ten percent class.

2.4 - Measurement of Income

2.4.1 - Household Income and Household Activities

In section 1.2.2 a comparison of expenditure and income showed that expenditure data in the HIES appeared more accurate than the income data.

The comparison of annual income and expenditure presented by the ratio of expenditure to income (see Table 1.2) showed that over half (55%) of total sampled households reported their ratios between 1.26 - 2.00 or more which meant that over half the households had expenditures of about 26% more, to double, or more than double, their corresponding incomes.

All income related tables must be used with caution.

Income by Source

The major source of income in all provinces apart from Honiara as stated in Table 4.0 below is from the value of home production. Home production here refers to the value of goods and services produced by the household to be predominantly consumed by the same household or given as gifts. Such goods like vegetables, fruits grown from gardens or fish from the sea etc. The kinds of activities that generate such value of production are typical of the rural lifestyles of households whereas in predominant urban areas like Honiara, wages & salaries are expected to be the main source of income.

Household entrepreneurship

Households or members of households can be engaged in one or more small scale commercial business activities. In Table 4.1 overleaf, all households in nearly all provinces reported root crop business activities as a predominant commercial activity followed by other vegetables and fruits

related household businesses. In Honiara, the highest proportion of households are engaged in other self employment businesses followed closely by root crop businesses.

Table 4.1: Distribution of households in Self Employed & Related Businesses in Provinces by Type of Commercial Activity

* A household can be involved in more than one type of commercial activity.

Hours Worked

In this survey and in line with UN system of national accounts conceptualization, any activity resulting in the production of goods and services that add value to the national product is considered as an economic activity. This includes all market activities performed for pay or profit; all the non market activities, all agricultural activities which result in agricultural production like gathering of uncultivated crops, forestry, collection of firewood, hunting, fishing etc.) for own consumption, and the activities relating to own account production of fixed assets.

Table 4.3 show average hours worked by households who earn Wages & Salaries by industry and province. The hours of work of employed by industry vary amongst provinces. In the Choiseul province, the highest average hours (62 hrs) are spent in agriculture, forestry and fishing industries. In Isabel, an average of 99 hours, the highest in all provinces is spent in private households who employ persons. Guadalcanal is the only province where households spent an average of 56 hours in mining and quarrying activities. In Temotu and Honiara, the highest average hours have been spent in the collection, recycling and distribution of water activities.

Table 4.3: Average hours worked in a week by households who earns wages and salaries in Province by Industry

2.4.3 – Income distribution & inequality

Lorenz curve and inequality³

Whilst inequality measures can be better represented with poverty related measures, it was felt that a broad measure of income distribution needed to be reflected in this report.

The concentration of income distribution can be represented through the Lorenz curve and the Gini coefficient which are standard measures of (in)equality. The Lorenz curve presents the cumulative income (expenditure) share on the vertical axis against the cumulative distribution of population on the horizontal axis. If each person had the same income (or total equality), the income distribution curve would be the straight line on the graph.

³ *The Lorenz curve and Gini coefficients are measured in ‘nominal’ terms or at current prices. For poverty analysis purposes, this can be adjusted in real terms.

* Normally per-capita consumption expenditure is used & adjusted for adult equivalent scales. Since there is no official definition of adult equivalent scales, per capita consumption expenditure could not be adjusted and used. Note also that using annual expenditure does not account for varying household size. For poverty analysis purposes, we hope that this adjustment can be made.

The Lorenz curve above shows relative equalities in Isabel and Makira Provinces and inequalities in the other provinces. Using expenditure as a proxy of income, it is observed that, on average, about 80% of the household population in all provinces including Honiara earn about close to half the total income of the country and only about 20% of households earn the other half of total income.

The Gini coefficient will equal to zero if income is distributed equally and if only one person owns all income, then Gini coefficient will equal to one where all other individuals have no income. The Gini coefficient of inequality varies between 0 and 1. The general formulae for the Gini coefficient can be expressed as:

$$Gini = \frac{1}{2n^2 y} \sum_{i=1}^n \sum_{j=1}^n |y_i - y_j|$$

where *n* represents the population, *y* the average income (or expenditure) and *y_i* the income (or expenditure) of person *i*. For our purposes, we used annual expenditures.

The Gini coefficient as been further expressed and easily computed using an excel spreadsheet.

The Gini coefficient is the most commonly used indicator but it has a major disadvantage in that it is not additive. For example, the Gini coefficients for respective provinces when summed up would not equal to the country's Gini coefficient.

Table 4.5 show that inequality as measured by the Gini coefficient show that Isabel Province relative to the other provinces records the least inequality (0.24) whilst Rennell-Bellona Province recorded the highest inequality (0.46).

Table 4.5: Gini Coefficient for Total Annual Expenditure by Province

Province	Gini Coefficient
Choiseul	0.351
Western	0.260
Isabel	0.237
Central	0.337
Rennell-Bellona	0.463
Guadalcanal	0.298
Malaita	0.294
Makira	0.265
Temotu	0.347
Honiara	0.288
Solomon Islands	0.361

Household Income and Expenditure Survey 2005/2006

INCOME QUESTIONNAIRE

Province:	<input type="text"/>	<input type="text"/>	
Ward:	<input type="text"/>	<input type="text"/>	
Enumeration Area:	<input type="text"/>	<input type="text"/>	
Household # :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Village name:		
Household Head Name:		
Interviewer's Name:		

Confidentiality of Information Supplied

- All data supplied in this questionnaire will remain strictly **CONFIDENTIAL** to the Solomon Islands Statistics Unit.
- The information you give will be combined with information from other households to produce accurate and up to date statistics on the income and expenditure patterns of households.
- The information will be used solely for statistical purpose **ONLY**.

Who must complete this questionnaire?

- This questionnaire must be completed for **all** persons who normally reside in the household aged 15 years and over.

Recording Dollar Amounts

- Record whole dollar amounts in Solomon Island Dollars. If the income was received in shell money, then convert the amount to Solomon Island Dollars.

Survey period

- All information in this questionnaire relates to the reference period specified for that particular question.

Income questionnaire

- This questionnaire has six sections. You will be asked to provide the following information:
 1. Working for Wage and / or Salary
 2. Self Employed, Own Plantation and Business
 3. Previous Jobs held in the last 12 months
 4. Services Provided to Other Private Households
 5. Welfare Benefits/Allowances
 6. Other Income, including Remittances

1. Working for wages and / or salary

- Cross check with the Household Control Sheet to find the number of persons aged 15 years and who have ticked either activity 1 and 2 as their main activity.
- Check if other persons aged 15 years and over who are not currently working had work during the reference period. Note here and refer to Section 3.
- Self-employed persons, employers with employees and persons working for wage or salary on a full time or regular part time basis should complete this section.

1.1 Currently working for pay

- **‘Currently’** means at the date of the interview. Records should be for the job that the person is doing now.
- **‘Main Occupation’** is the main job a person is engaged in, such as a *taro grower, poultry farmer, truck driver, dental nurse*, etc.
- **‘Name of Employer’** is the name of the business or the name of the person, a person is working for, such as the *Education Department, Primary School, Solomon Islands Development Bank, Broadcasting Corporation of Solomon Islands, Nicky’s Food Bar*, etc.
- **‘Type of Sector’** is the sector for which a person is working in. The *Public Sector* includes all government departments and bodies; the *Private Sector, Religious Organisations and Other Organisations*.
- **‘Main Activity at Place of Work’** is the main type of industry for which a person is engaged in, such as *agriculture, fishing, manufacturing, printing, public administration, teaching, health services*, etc.
- **‘Hours Worked’** is the number of hours usually spent on the job (including overtime).

1.2 Earnings from job in last 12 months

- **‘Gross Pay’** means before any deductions from pay such as *PAYE tax, superannuation, union fees, rent, mortgage repayments, insurance premiums, provident fund*, etc.
- **REFER TO PAYSLIPS IF POSSIBLE**

1.3 Second job

- This question is aimed at persons with formal regular secondary jobs.

1. Working for wages and / or salary

1.1 Is anyone in this household currently working for pay in a job, business or profession? If yes, provide details below. (If "No" go to Q2.1)

Person Number				
Main Occupation				
Office use only				
Name of Employer				
What sector are you working in? 1-Public Sector 2-Private Sector 3-Religious organisation 4-Other	Enter code here <input type="text"/>	Enter code here <input type="text"/>	Enter code here <input type="text"/>	Enter code here <input type="text"/>
Main activity at your place of work				
Office use only				
Number of hours worked a week (usual, including overtime)				
How long have you been working at this job (years)?				

1.2 How much did you earn from this job in the last 12 months ?

Gross cash pay for this job	\$	\$	\$	\$
Payment in kind (est)	\$	\$	\$	\$
TOTAL	\$	\$	\$	\$
Less deductions (tax, NPF, superannuation etc)	\$	\$	\$	\$
NET TAKE HOME EARNINGS	\$	\$	\$	\$

1.3 Does any member of this household currently have a second wage&salary job? If yes provide details below.

Your wages/salary in the last 12 months for the second job?	\$	\$	\$	\$
Is this your gross or net wage / salary?	() Gross () Net	() Gross () Net	() Gross () Net	() Gross () Net

2. Self employed, own plantation and business

This section should be filled by persons whose main activity is a:

- sole proprietor;
- a partner in a business;
- 'own account worker' in agriculture, fishing, handicrafts etc; or
- any other form of self employment.

It includes persons earning income from hobbies or other activities. For example, someone earning money from selling taro, coconuts, etc should complete this section.

NOTE: Check to make sure the person is reporting his or her **earnings, drawings or income** from the business and **not** the **business turnover**.

2. Self employed, own plantation and business

2.1 Did any member of the household receive regular income from any of the following commercial activities during the last 12 months?

- A. Root Crops (eg, Kumara, Casava, Taro) Yes No
- B. Other vegetables and fruits Yes No
- C. Livestock farming Yes No
- D. Sale of fish and/or other seafood Yes No
- E. Logging activities Yes No
- F. Sale of handicrafts, wood and/or shell products Yes No
- G. Other small business activities Yes No
- H. Other self employment (plumbing, sewing, repairs etc) Yes No

Please specify _____

If all replies are "NO" Go To 3.1.

2.2 Please give details of the income earned from the above commercial activities: Answer below for the total for all persons involved in the activity in the household

Refer to above letter	A	B	C	D
Number of persons involved in this activity				
Type of industry				
Office Use Only				
Total sales or gross earnings	\$	\$	\$	\$
Total expenses (incl. labour, material, transport etc.)	\$	\$	\$	\$
Estimated value of drawings from business (include items used for consumption at home)	\$	\$	\$	\$
Office Use Only	92207	92208	92203	92204
Refer to above letter	E	F	G	H
Number of persons involved in this activity				
Type of industry				
Office Use Only				
Total sales or gross earnings	\$	\$	\$	\$
Total expenses (incl. labour, material, transport etc.)	\$	\$	\$	\$
Estimated value of drawings from business (include items used for consumption at home)	\$	\$	\$	\$
Office Use Only	92209	92205	92210	92206

3. Previous jobs in the last 12 months

This section should be answered by household members who used to have a regular full-time or regular part-time job that are no longer held. Such as:

- i. Regular job(s) given up in the specified period in order to take up new one(s)
- ii. Regular job(s) given up to go into retirement
- iii. Regular job(s) given up because of the redundancy, sickness, etc.

Gross amount received means the amount of money received as payment for the job or service before any deductions such as PAYE tax; superannuation; rent; mortgage repayments; etc., are subtracted.

Please include any overtime, bonuses, and/or taxable allowances contained in the regular pay slip.

Note: do not include any 'special' one-off type payments or any irregular income (eg termination payouts, prepayments of leave).

3. Previous jobs in the last 12 months

3.1 Apart from the jobs you have already mentioned, are there any jobs that household members held during the last 12 months which they do not hold at the moment?

() Yes () No **If NO Go To
4.1**

3.2 For each job, please provide the following information about the income:

Person No.	Job No.	Name of Employer	Gross amount received (include bonuses and commission)	Other (eg redundancy payment)	Office Use Only
			\$	\$	
			\$	\$	
			\$	\$	
			\$	\$	
			\$	\$	
			\$	\$	

4. Services provided to other private households

In this section include all irregular jobs held at random times during the specified period. Jobs such as babysitting, planting and clearing taro plantations, mowing of the lawn, etc:

- Record the gross pay for the last 12 months in total (include value of goods received for payment in kind).

If more than one person in this household has been involved in the same activity, then combine the earnings over the last 12 months for each person involved.

4. Services provided to other private households

4.1 In the last 12 months, did any member of this household receive any money from casual jobs for other households or non-profit organisations? 'Casual jobs' include casual work such as lawn mowing, baby-sitting etc. done for other households.

() Yes () No **If NO Go To
5.1**

4.2 For each job, please provide the following information about the income:

Type of Job (eg lawn mowing, baby sitting, work in taro patch)	Gross Pay in last 12 months		Office use only
	Cash	In Kind (*)	
Lawn mowing	\$	\$	94201
Baby sitting / Child minding	\$	\$	94202
Work in food garden	\$	\$	94203
Repair work	\$	\$	94204
Adhoc Labour	\$	\$	94205
Fishing/Hunting assistance	\$	\$	94206
House Cleaner/Domestic	\$	\$	94207
Other (specify)	\$	\$	
	\$	\$	

(*) estimate the value of any items provided according to how much they would have cost to buy

5. Welfare benefits/allowances

This section includes all income received by members of the household as a form of benefit provided by the Department of Home Affairs or any other source.

- Record the gross receipts for the year (include value of goods received for payment in kind).

5.1 Welfare benefits

- If a social welfare benefit is paid to more than one person in the household, record the total amount received for the last 12 months as separate amounts for each person.
- **Note:** This section covers both benefits paid by the Department of Home Affairs as well as any other regular benefit payment.
- **Include:** Maintenance received for child custody.
- **Include:** Welfare benefits from overseas.

5.2 Superannuation payments received

- Include superannuation payments received from local and from overseas sources, excluding pension payments from the Department of Home Affairs.
- 5.2a includes regular superannuation payments
- 5.2b includes lump sum superannuation payments
 - **Note:** If a 'lump sum' superannuation payment has been received, indicate the reason for the payment (withdrawal) eg, house repairs, travel, living expenses etc. Also if possible include the period covered by these lump sum payments.

5. Welfare benefits/allowances

5.1 In the last 12 months, did any member of this household receive any social welfare benefit payments from the Department of Home Affairs or any other regular benefit payments?

() Yes () No **If NO Go To 5.2**

What was the gross amount received for these benefit payments in the last 12 months?

Type of benefit / allowance	Person Number				Office use only
	\$	\$	\$	\$	
	\$	\$	\$	\$	
	\$	\$	\$	\$	
	\$	\$	\$	\$	

5.2a In the last 12 months, did any member of this household receive any regular superannuation payments?

() Yes () No **If NO Go To 5.2b**

What was the gross amount received for these regular superannuation payments?

Source of superannuation	Person Number							Office Use Only
Solomon Islands Government (SIG)								95201
Other Solomon Islands (OSI)								95202
Overseas (OS) <i>Please specify</i> _____								

5.2b In the last 12 months, did any member of this household receive any lump sum superannuation payments?

() Yes () No **If NO Go to 6.1**

If Yes Please fill in the table below

Source – Please Circle (see 5.2a for Abbreviation)	Person Number			Office Use Only
	SIG / OSI	SIG / OSI	SIG / OSI	
	OS	OS	OS	
Amount	\$	\$	\$	
Reason				
Period Covered				

6. Other income

In this section record any other income received by household members not covered in previous sections.

– **Interest on bank accounts**

Record the gross amount received, including tax deducted at source.

– **Rent**

Ensure that all expenses claimed for tax purposes are deducted from the gross rent received. Such expenses may include depreciation, repairs and maintenance, mortgage interest, rates and insurance.

– **Honoraria**

A honoraria is a (voluntary) fee specially for professional services nominally rendered without payment (eg, honorary auditor for NPF accounts)

– **Dividends**

Record the cash amount received, plus Resident Withholding tax deducted at source. In the case of shares received in lieu of dividends, record the gross value of the dividend foregone, before the deduction of the Withholding taxes.

– **Matrimonial**

Record the total amount of money received by the respondent less the Settlement Respondent's share of the net profit proceeds (sale contract price less sale expenses) from the sale of the matrimonial home.

– **Remittances**

Record amounts of cash and goods received from overseas relatives. Record values as SI dollars.

– **Housie, Lotto, Bingo, Raffle etc**

Income from gambling and betting over the last 12 months (to check the information from the income and expenditure diary).

EXPENDITURE QUESTIONNAIRE

Province:	<input type="text"/>	<input type="text"/>
Ward:	<input type="text"/>	<input type="text"/>
Enumeration Area:	<input type="text"/>	<input type="text"/>
Household # :	<input type="text"/>	<input type="text"/>
Village name:		
Household Head Name:		
Interviewer's Name:		

Confidentiality of Information Supplied

- All data supplied in this questionnaire will remain strictly **CONFIDENTIAL** according to the Solomon Islands Statistics Act.
- The information you give will be combined with information from other households to produce accurate and up to date statistics on the income and expenditure patterns of households.
- The information will be used solely for statistical purposes **ONLY**.

Who must complete this questionnaire?

- This questionnaire must be completed for **all** persons normally resident in the household.

Survey period

- The reference period for this questionnaire differs for each question. Please make sure the correct reference period is applied.

Recording Dollar Amounts

- Record whole dollar amounts in Solomon Island Dollars. If a purchase was made overseas with a different currency then record the amount in the currency used and write down the currency. If a purchase was made with shell money, then convert the amount to Solomon Island Dollars.

Expenditure questionnaire

- This questionnaire has 15 sections. You will be asked to provide the following information:
 7. Dwelling characteristics
 8. Dwelling tenure
 9. Mortgages and loans for purchase of dwellings
 10. Insurance policies
 11. Construction of new dwellings
 12. Major home improvements
 13. Household operation
 14. Transportation
 15. Travel – Domestic & Overseas
 16. Education, recreation, sport and culture
 17. Loans
 18. Contribution to benefit schemes
 19. Medical and health services
 20. Miscellaneous payments
 21. Agricultural Assets

1. Dwelling Characteristics

Some of these questions can be completed by observing the house and thus may not need to be asked. This in particular applies for questions 1.1 – 1.4.

1.1 Roof material

If the roof is made of a combination of materials, tick the material that is most used.

1.2 Wall material

If the walls are made of a combination of materials, tick the material that is most used.

1.6 Year building constructed

If the building was constructed a long time ago, we only need a rough estimate as to when the building was constructed.

1.1 What is the main material used for the roof? (tick one box only)

- Corrugated iron with guttering 1
- Corrugated iron without guttering 2
- Thatched/traditional 3
- Other, describe 4

1.2 What is the main material used for the outer walls? (tick one box only)

- Permanent - timber 1
- Permanent - concrete 2
- Permanent - timber/concrete 3
- Thatched/traditional 4
- Corrugated iron/improvised 5
- Hardiflex 6
- Masonite 7
- Fibro 8
- Other, describe 9

1.3 What is the main material used for the floors? (tick one box only)

- Earth/soil 1
- Timber 2
- Concrete 3
- Other, describe 4

1.4 What type of house (main house) is this?

- Permanent
 - single housing unit 1
 - more than one housing unit 2
- Building with two or more apartments 3
- Dwelling attached to a shop or other non-resident building 4
- Lodging house 5
- Traditional 6
- Other (specify) 7

1.5 How many separate rooms does your household occupy, including the kitchen?

No. of rooms (bedroom, lounge, dining)

1.6 When was this building constructed? Please provide best guess if possible

Year

Don't know 9 9 9 9

1.7 Do you have a separate kitchen or kitchenette?

- Yes, inside & outside dwelling 1
- Yes, inside dwelling only 2
- Yes, outside dwelling only 3
- No 4

1.8 Cooking fuel

If the household uses more than one type of cooking technique, tick the main one only.

1.9 Lighting

If the household uses more than one type of lighting, then tick the type used the most often.

1.10 Drinking water

This question targets the main source of drinking & cooking water for the household. If a household obtains its water from more than one source then tick the source that is used the most often.

1.11 Travel for water

This question should only be asked of households who have to travel a significant distance for its main source of water.

If a boat is used to get to the water source than record how long it takes to get there by boat.

If a trip is made every second day on average, then record the answer as $\frac{1}{2}$.

1.8 How do you usually do your cooking? (tick one box only)

- Electric - plate without oven 1
- Electric - stove with oven 2
- Gas burner with oven 3
- Gas burner without oven 4
- Kerosene burner, stove 5
- Wood stove (including coconut shell) 6
- Sawdust stove 7
- Open fire 8
- Other describe 9

1.9 What type of lighting do you usually have? (tick one box only)

- Electric, main electricity supply 1
- Electric, own generator 2
- Kerosene or spirit lamp 3
- Oil lamp (including coconut or fat) 4
- Solar powered 5
- Other light (specify fuel) 6
- No lighting regularly available 7

1.10 What is the main source of drinking & cooking water your household uses? (tick one box only)

- Piped into household/yard 1
- Piped into neighbourhood 2
- Piped supply outside neighbourhood 3
- Well in yard 4
- Public well 5
- Rain water tank 6
- River/lake/creek.. 7
- Tanker truck 8
- Other, describe 9

1.11 If you have to travel for water:

a) how long does it take to walk to the water source?

Minutes

b) how many trips are usually made per day?

No. trips

1.12 What is the main type of toilet facility your household usually use? (tick one box only)

- Own flush septic tank 1
- Shared flush toilet 2
- Household pit 3
- Household bucket 4
- Communal pit toilet 5
- Closet over sea or water (long drop) 6
- Other, specify 7
- None 8

2. Dwelling tenure

- A rented dwelling is one that is not owned by the household, and for which regular payments are made by the household to the owner.
- A rent-free dwelling is one that is owned by friends or relatives and that the household does not pay for.
- A dwelling with a loan repayment or mortgage is one purchased by the household with a loan or mortgage which is being paid off.
- A dwelling that is owned outright is one free of loan or mortgage and is lived in by the household.

2.2 Rent paid

- Record the amount of rent paid for the property, even if paid from a business account.
- Period covered – record “2 weeks”, “1 month”, “quarterly” or “annually”.

2.4 Other payments for properties

- Record any bond, administration charge or other lump sum payment in the last 12 months in connection with renting the property.

2. Dwelling tenure

2.1 Does your household:

- Rent – and pay rent for this dwelling? () **Go To 2.2**
- Rent – but occupy free of charge? () **Go To 2.3**
- Occupy the dwelling with mortgage / loan repayments? () **Go To 2.4**
- Own the dwelling outright? () **Go To 2.4**

2.2 What was the latest amount of rent paid for this dwelling (and any other dwellings rented by the household). Include land lease but not bond payments:

Type of payment	Amount Paid	Period Covered (e.g. 2 weeks)	Office use only
Rent	\$		21101

2.3 Who are you renting this household from?

Rented from:

- Employer () 1
- National Government Organisation (NGO) () 2
- Church () 3
- Relatives () 4
- Other () 5

2.4 In the last 12 months, were any of the payments below made in connection with your dwelling (or any other dwelling owned or rented by the household)?

- () Yes () No **If NO Go To 3.1**

For each payment, would you please provide the amount paid for:

Type of payment	Amount Paid	Office use only
Security Deposit (Bond)	\$	21102
Electricity Connection Fees	\$	21103
Telephone Connection Fees	\$	21104
Water Connection Fees	\$	21113
If other payments, please specify		
	\$	
	\$	
	\$	

3. Mortgages and loans for purchase of dwellings

3.1 Mortgages and loans

- **Include:** all kinds of loans for the purpose of purchasing the property provided that they are still to be paid off.
- **Include:** all loans for the construction of a new dwelling provided they are still to be paid off.
- **Include:** all loans for major improvements to a dwelling.
- **Include:** loans on the security of other assets, loans against insurance policies, lease with option to purchase, unregistered loans and bridging finance provided that they were made to pay for the purchase of this dwelling and are still to be paid off.

3.3 Mortgages and loans details

- Amount borrowed – include the original amount borrowed for the purchase of this dwelling (and any other dwelling owned by this household).
- Who borrowed from – state whether the money was borrowed from a bank, credit union, NPF, family or friends, etc.
- Year borrowed – the year that the mortgage or loan was initially made.
- Borrowers cash contribution – the amount of the deposit made to secure the mortgage.
- Term of mortgage or loan – record the full term as the number of years over which the loan is spread (including any extension to the original term), **not** the remaining term.
- Amount of latest payment – record details from the latest payment made for the mortgage or loan.
- Period covered by that payment – if 'one month' then record as '4 weeks' or 'calendar month' as appropriate.

4. Insurance policies for dwelling and contents

- Record details from the latest account received. The per annum amount may be recorded from premiums paid by instalment if it is more readily available than the latest instalment paid.

3. Mortgages and loans for purchase of dwellings

3.1 In the last 12 months, were there any mortgage or loan repayments for this (or any other dwelling owned by the household) for any of the following?

- a) Purchase of a dwelling?
- b) Construction of a new dwelling?
- c) Major improvements to a dwelling

() Yes () No **If NO Go To 4.1**

3.2 How many mortgage or loans are being paid?

Number: _____

3.3 Please provide the following information for each mortgage or loan:

	Mortgage or loan			Office use only
	1	2	3	
Amount originally borrowed	\$	\$	\$	
Who borrowed from				
Year				
Borrower's cash contribution	\$	\$	\$	
Term of mortgage or loan	___ Years	___ Years	___ Years	
Amount of latest payment	\$	\$	\$	
Period covered by latest payment				
Interest rate (current)	___ %	___ %	___ %	
	<i>Office use only</i>			

4. Insurance policies for dwelling and contents

4.1 In the last 12 months, were any payments made for insurance policies on the dwelling or its contents (or any other dwelling owned by the household)?

() Yes () No **If NO Go To 5.1**

4.2 What was the amount of the latest premium (payment) for the policies?

Type of insurance policy	Amount of latest premium	Claims made against policy	Office use only	Period covered by this premium	Office use only
House	\$	\$			21106
Contents	\$	\$			21107
Fire	\$	\$			21108
Other (specify)					
	\$	\$			
	\$	\$			
	<i>Office use only</i>				

5. Construction of new dwellings

5.1 New dwellings

- **Do not include:** payments made in connection with the construction of dwellings used (or intended to use) mainly for business or investment purposes or payments made for a dwelling which will be rented out to others for more than one month a year.

5.2 Payments for construction

- **Include:** payments made by the household directly to a second party such as a local builder, contractor, plumber etc.
- **Site preparation:** include work such as excavating, rock and shrub removal, tree felling, access road, installation of utilities. If the work was done on a contract basis (ie part of the overall cost) include in payments to builders and trades people.
- **Contract payments to builder:** record all contract payments made.
- **Materials:** materials purchased by the household to be used in the basic construction of the building. Traditional materials include things such as sago palm leaves, sago stems, palm stems, etc. Non-traditional materials include concrete, timber, corrugated iron, etc.
- **Other:** record only the costs (if any) which related to the basic construction of the dwelling rather than to the fitting out and decoration of the dwelling which should be entered in question 6.1.

5.3 Money obtained from loan

- **Yes:** this loan should be included in question 3 as it relates directly to housing expenditure

5. Construction of new dwellings

5.1 In the last 12 months, did any member of this household make a payment in connection to the construction of a new dwelling?

() Yes () No **If NO Go To
6.1**

5.2 Payments for construction items

Types of payments for construction of new dwelling	Amount Paid	Office use only
Site preparation	\$	24101
Surveying fees	\$	24102
Architectural or draughting fees	\$	24103
Building permit fees	\$	24104
Registration Fees	\$	24106
Contract payments to builders	\$	24107
Contract payments to other trades people	\$	24108
Materials used in the basic construction – non-traditional	\$	24109
Materials used in the basic construction - traditional	\$	24110
Transport of Materials	\$	24111
Other costs of construction (specify)		
	\$	
	\$	
	\$	
		Office use only

5.3 Was any money obtained from a loan?

Yes () **Check that loan has been included in question 3**

No () **Go to question 6.1**

6. Major home improvements (after construction)

NOTE: For each section in Question 6, check with the respondent if any of the payments made were from **loans**. If so, this information should be recorded in Question 3.

6.1 Payments to contractors

- **Labour costs only.** Please note if the payments include materials.
- **Amount paid:** Record payments made in the last 12 months. If payment was made in the form of goods or services record the estimated value of the goods or services. Do not record the full contract price unless the contract was paid in full.
- **Include:** expenditure by household members on dwellings not owned or rented by them, for example expenditure by a household member on his or her parent's house) **unless** the household was reimbursed for the expenditure.
- **Do not include:** expenditure on properties used mainly for business or investment purposes, or expenditure on properties owned by household members that are rented out by them for more than one month a year.

6.2 Purchase of materials

- **Include:** materials purchased by household members even if it is for other properties, such as for parent's house.
- **Items bought:** separate the cost of combined purchases of materials into single items, using the respondent's best estimate if necessary.

6. Major home improvements (after construction)

6.1 In the last 12 months, did any member of this household pay a person or a business to do any improvements to any private dwelling?

() Yes () No **If NO Go To
6.2**

Payments to contractors

Type of payment	Amount Paid	Office use only
To carry out repairs, renovations, or improvements	\$	22101
To carry out structural additions or alterations	\$	22102
To build a garage or other building	\$	22103
Other payment to contractor (<i>specify</i>)		
	\$	
	\$	

6.2 In the last 12 months, did any member of this household purchase any of the items below for major home improvements?

() Yes () No **If NO Go To
6.3**

Purchase of materials

Item	Amount paid	Office use only	Item	Amount paid	Office use only
Cement	\$	23117	Cupboards	\$	23123
Paint	\$	23101	Concrete blocks	\$	23152

Sewing machine	\$	32111	Lawn mower	\$	23125
Home Computer/Printer	\$	32112	Weed eater (Grass cutter)	\$	23126
Kerosene Stove	\$	32113	Chainsaw	\$	23128
Electric Frying pans	\$	32114	Power tools	\$	23130
Microwave Oven	\$	32115	Garden supplies	\$	23140
Blender	\$	32116	Other (specify)		
Egg Beater	\$	32117		\$	
Coffee Percolator	\$	32118		\$	

7.3 Household accounts

- **Do not include:** any expenses paid by a business.
- **Include:** Rental and toll charges for telephone.
- **Period covered:** ensure period covered is recorded, usually '1 month' – do **not** record dates.
- **Amount of latest payment:** record details from the latest account received. If records are not available then 'best estimates' will do.

7.4 Payments for repairs to household effects

- **Include:** payments made by household members for the repair of items recorded under question 7.1 or 7.2, e.g. video player repairs.
- If the same item was repaired more than once, include the cost of each repair

7.5 Payments for Hiring of Household Operation Equipments

- **Include:** total payment made by household members for the hire of home operation equipment such as lawn mower, weed eater.
- **Exclude:** equipment used for construction, if already covered in question 5 or 6

7.3 In the last 12 months, did any member of this household pay any of the following household bills?

Yes

No

If NO Go To 7.4

Household bills

Type of account	Amount of latest payment		Office use only
Telephone (fixed)	\$	Monthly	33201
Mobile phone	\$	Monthly	33202

	\$	

8. Transport

8.1 Transport – purchases

- **Include:** vehicles purchased and used partly for business purposes but **mostly** for private use and vehicles used purely for private purposes.
- **Include:** Vehicles, even if they aren't road worthy.
- **Do not include:** vehicles purchased and used **mainly** for business; taxis, rental cars and other vehicles hired during the year
- **Total cost of the vehicle:** exclude registration and other fees.

8.2 Transport – purchases, loans

- **Who borrowed from:** state whether the money was borrowed from a bank, credit union, NPF, family or friends, etc.
- **Include:** loans taken out in the last 12 months (do not include these in question 11).
- **Borrower's contribution:** include only the cash deposit and do not include the trade-in amount (if used).
- **Insurance:** include the annual premium.

8. Transport

8.1 In the last 12 months, did any member of this household purchase any of the items below for household vehicles?

() Yes () No **If NO Go To
8.3**

Vehicle purchases

Type of vehicle bought	Total Cost	Office use only
Private car/station wagon/4 Wheel Drive	\$	51101
Van	\$	51102
Utility, Pick-up	\$	51103
Motorcycle / Motor Scooter	\$	51104
Bicycle	\$	51109
Truck	\$	51105
Bus	\$	51106
Boat	\$	51108
Canoe	\$	51110
Outboard Motor	\$	51111

9. Overseas and Domestic travel

9.1 & 9.2 Travel expenses

NOTE: For each household member who has had an overseas or domestic trip in the last 12 months, expenditure amounts (**or estimates**) are required for expenses paid by the **household**.

- **Domestic travel:** This refers to any travel from one province to another, as well as any significant travel within a province which involves a flight or boat trip
- **Include:** – amounts paid for trips taken in the last 12 months;
 - private expenditure abroad including any trips paid for by family overseas.
- **Include:** Payments made by household members for relatives overseas to travel to Solomon Islands and visit them.
- **Do not include:** Overseas trips paid for by the Government of Solomon Islands or other regional or international organisations. If, however 'private' expenditure occurred during any such trip then record that expenditure.
- **Transport costs:** If possible ask respondents to record separately expenditure on different types of **public transport** (eg airfares, car hire), using the respondent's best estimates if necessary.
- **Other expenses: Include** expenses by the respondent on clothing, medical goods and services, household items, even though these should also be recorded in the appropriate sections of the expenditure questionnaire.

9. Domestic and Overseas travel

9.1 Did any member of this household have any travel expenses for domestic trips (within the Solomon Islands) taken in the last 12 months? Include expenses made by members of this household for persons outside the household.

() Yes () No **If NO Go To
9.2**

Expenditure by household members for domestic travel

Person No.					
Travel expense	Trip 1	Trip 2	Trip 3	Trip 4	Office use only
Air fare	\$	\$	\$	\$	53201
Sea fare	\$	\$	\$	\$	53202

10. Education, recreation, sport and culture

10.1 Fees and subscriptions

- **Include:** fees and subscriptions which are of a fixed amount and which are paid either annually, or at a fixed interval such as per term, month etc., or for a specific course of lessons. Examples include golf club subs, music lessons, exam fees, social club sub etc.
- **Subscriptions levied by sports / leisure clubs or societies:** include all subscriptions by clubs or leisure groups or societies such as associations, institutes and welfare groups.
- **Education fees: do not include** fees (or parts of fees) that were paid directly to the education provider as part of a bursary or scholarship. Include expenditures made by household members only.
- **School fees:** if fees were paid on a term or semester basis, make sure the expenditure amount entered is for the **last 12 months**.
- **Regular contributions to religious and other organisations:** include regular payments only, not expenditures like weekly church donations.
- **Regular child care:** include set fees charged by care providers, crèches, kindergartens, pre-schools or play centres for child care undertaken on a **regular basis**.
- **Bingo, housie, raffles, lotto: do not** discount winnings.

10. Education, recreation, sport and culture

10.1 In the last 12 months, did any member of this household make any regular payments associated with education, recreation, sport and culture?

() Yes () No **If NO Go To
11.1**

Fee or subscription details

Type of fee or subscription	Amount paid	Office use only
<u>Education Expenses</u>		
Formal education fees – Early childhood (eg, Kindergarten)	\$	83210
Primary school		83211
Secondary school	\$	83212

	\$	
	\$	
	\$	

11. Loans

NOTE: This question covers all non-property and non-vehicle loans of over \$100 or more obtained in the last 12 months, regardless of whether or not the money obtained has been spent.

11.1 Loans

- **Do not include:** *loans for the purchase, construction or home improvement of dwellings* which should be recorded in Question 3.
- **Do not include:** *loans made for the purchase of transport* as these should have been recorded in Question 8.
- **Include:** all relevant loans which have since been paid off, loans from a credit card company. All types of loans whether or not secured against property. loans covering personal expenses, household expenses, repayment of debt etc.
- **Include:** *loans made for household operations* noted in Question 7. **Include:** *loans made for overseas travel* and expenses noted in Question 9.

11.2 Purpose of loan

- Who borrowed from - state whether the money was borrowed from a bank, credit union, NPF, family or friends, etc.
- If the purpose was holiday or overseas travel specify the main destination.
- For each loan write the purpose of the loan – eg ‘home improvements’, ‘wedding’ etc.
- **Loan repaid yet:** if the answer is ‘yes’ and the total amount repaid (including interest) is not known, then give best estimate.

11.3 Current loan details

- These include loans from an on-call credit facility. Use the respondent’s best estimate of when he or she will pay off the loan if this is known; if not record ‘open term’.

11. Loans

11.1 In the last 12 months, did any member of this household borrow any amount of money for purposes other than housing loans or mortgages or for the purchase of vehicles?

() Yes () No **If NO Go To
12.1**

11.2 What was the purpose and details of each loan?

Loan No.	1	2	3	4	Office use only
Who borrowed from					
Purpose of loan					
Amount originally borrowed	\$	\$	\$	\$	
Interest rate (current)	\$	\$	\$	\$	
Has the loan been repaid yet	() Yes () No	() Yes () No	() Yes () No	() Yes () No	
	<i>If NO Go To 11.3</i>				
What was the total amount repaid, including interest?	\$	\$	\$	\$	

11.3 Please provide the details of each current loan?

The term					
Amount of latest payment (total)	\$	\$	\$	\$	
Period covered by that payment					
Principal outstanding	\$	\$	\$	\$	

12. Contributions to benefit schemes

12.1 Types of benefit schemes

- **Include:** the value of the latest payment made by household members and those made on behalf of persons outside the household.
- **Include:** the term that this payment covered (eg monthly, annual, quarterly).

13. Medical and health services

13.1 Payments for medical services

- **Include:** payments made by household members and those made on behalf of persons outside the household in the last 12 months. Include the value of payment in kind in the case of traditional medical practitioners.
- **Include:** expenditure paid by household members while overseas for medical and health services such as prescription charges, doctors visit charges etc as 'other' costs and note that these were incurred overseas. Note that if these expenses were reimbursed by insurance or another agency do not record the expenditure, unless the expenses were only partially reimbursed in which case record the expense less the reimbursement.
- **Do not include:** the cost of overseas travel for medical purposes as the expenditure of household members should be included in Question 9 on Overseas Travel.

12. Contributions to benefit schemes

12.1 In the last 12 months, did any member of this household make a contribution to a life insurance, superannuation or pension scheme?

() Yes () No **If NO Go To
13.1**

Expenditure by household members for benefit schemes

**Solomon Islands
Household Income and Expenditure Survey
2005/2006**

HOUSEHOLD DIARY

Province:	<input type="text"/>	<input type="text"/>	
Ward:	<input type="text"/>	<input type="text"/>	
Enumeration Area:	<input type="text"/>	<input type="text"/>	
Household # :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Village name:.....			
Household Head Name:			
Interviewer's Name:			

Confidentiality of Information Supplied

- All data supplied in this questionnaire will remain strictly **CONFIDENTIAL** to the Solomon Islands Statistics Unit.
- The information you give will be combined with information from other households to produce accurate and up to date statistics on the income and expenditure patterns of households.
- The information will be used solely for statistical purpose **ONLY**.

Survey period

- All information in this questionnaire relates to the period of 14 days.

Weekly Diary

- This questionnaire has 4 sections. You will be asked to provide the following information:
 - 1. Items Bought**

The first section of the diary for each day will be for recording all items bought in a store, street vendors, or from any other places (including credit).
 - 2. Consumption of Items Produced by the Household**

The second section of the diary for each day will be for recording all items produced by the household (eg, from the garden/plantation, livestock, fishing activities, etc). Do not include food items received from other persons.
 - 3. Gifts**

The third component of the diary will be for recording all items received from other households or given to other households (Cash or Goods).
 - 4. Winnings from Betting, Raffles and Lotteries**

The last component records information regarding winnings from any form of gambling.

Section 1 Items Bought

1.1 How to fill this diary

Write down everything you bought, whether paid by cash, cheque or on credit. If you have not bought anything today or consumed any of your own produce, place a tick inside the circle on the top of the page for the day.

Give as much detail about each item as possible

To help you remember the things you or your household members have bought or spent money on, keep all receipts and fill in the diary when you get home.

1.2 SPECIAL INSTRUCTIONS FOR SOME ITEMS

RAFFLES, BINGO

Write down the cost of any raffle ticket purchased or bingo cards played.

If you collect any winnings during the week, then write these down in section 4.

NEWSPAPERS AND MAGAZINES

Write down all spending on newspapers and magazines. If you paid an account or subscription during the survey period write that amount down too.

CHILDREN'S POCKET MONEY

Write down the payments of pocket money made to children. The child must not record any item bought out of that pocket money else it will be double counted.

If money was given to a child for a particular item then record the item - not as pocket money.

DONATIONS TO THE CHURCH OR OTHER ORGANISATIONS

If you make regular donations to the church (i.e. tithing on income) then write the amount down for the week with the description 'Regular church donation'.

If you make irregular contributions or put money in the plate at church then enter the amount and describe as 'church donation'.

CONSUMPTION OF ITEMS PRODUCED BY THE HOUSEHOLD

Estimate what you would have to pay to buy the same items in a shop, market, etc

1.2 SPECIAL INSTRUCTIONS FOR SOME ITEMS (*continued*)

FULL MEALS AT RESTAURANTS, LIGHT MEALS AND TAKEAWAYS

When you eat a full meal at a restaurant, you do not need to write down each item you bought. Please just describe it as 'dinner', 'lunch', etc.

For light meals and takeaways write down separately each item you bought, e.g. takeaway chips, sandwiches, filled roll, meat pie, and give the cost of each item. Please also describe the kind of drink as a separate item.

GROCERIES

Describe in full each item you bought. Please do not just put 'groceries'.

DRINKS AT STORES, CLUBS OR BARS AND RESTAURANTS

For drinks bought at a store, separate costs into the cost of beer, the cost of spirits, the cost of liqueur, the cost of fruit juice etc. For drinks bought at a pub or club, also say what type was bought and give the separate costs of each type if possible. If you can't remember the type of drinks write 'Drinks at (name of bar)' and the total amount spent.

BISCUITS

Write down the kind of biscuit such as 'gingernut biscuits', 'wine biscuits' etc

FRESH FISH

Please give the type e.g. Tuna, Wahoo, Flying Fish etc

FRUIT JUICE

Write down the brand and the kind of juice e.g. Just Juice - Tropical
Dunk, McCane, Tomato

MEAT

Please describe in full e.g. roast beef, stewing steak, corned beef, lamb chops etc

FRUIT AND VEGETABLES

Give the type, e.g. pineapple, pawpaw, Chinese cabbage etc and say whether they are fresh, chilled, canned or dried. Describe quantities in terms of weight where possible.
E.g. 2 kg kumara

BREAD

Please describe bread as 'sliced white bread', 'wholemeal bread', 'cheese bread' etc. If possible use a separate line for each type, and give the total cost of each type.

PET FOOD

Describe fresh meat or fresh fish bought for a pet as 'fresh fish for cat', 'fresh meat for dog'. For other pet food, please describe as 'canned dog food', 'dried cat food', 'frozen cat meat'

etc

BETELNUT

Don't forget to write in betelnut purchases

Not sure what to do?

Make a note of the problem and discuss it with the interviewer on their next visit.

EXAMPLE OF A CORRECTLY COMPLETED DIARY

Date: 7/10/2005

Day in week: Friday

If you have not bought or consumed any of your own produce today, please tick (✓) circle
